PREFACE

The "consolidated index of Congressional documents" for the second session of the Sixty-seventh Congress, herewith presented, is the thirty-second in the series prepared in the Office of the Superintendent of Documents in compliance with the requirements of the printing law of January 12, 1895.

The reports and documents included in this index number 1,825, divided as follows: Senate reports 605 (nos. 325–929); House reports 760 (nos. 496–1255); Senate documents 179 (nos. 86–264); House documents 281 (nos. 126–406, of which no. 267 is blank). No subject entries could be made for House documents 209, 212–214, and 310, which are Geological Survey water-supply papers 494, 497–499 and bulletin 723, respectively, as no titles have as yet been assigned to these numbers by the Geological Survey.

Serial number 7948 is assigned to the Senate Journal and number 7949 to the House Journal.

Entries in the Document index of the 66th Congress, 3d session, for publications which had not been printed at the time the index was issued, should be changed in the following cases:

All entries for House document 1040, Army register, Jan. 1, 1921, should be deleted from the index as this issue of the register will not be printed, being superseded by the issue of July 1, 1921, House document 247, 67th Congress, 2d session. Therefore House document number 1040, volume 15, serial 7809 of the 66th Congress, 3d session will remain blank.

The Annual report of the American Historical Association for the year 1919, House document 1039, will be issued in two volumes and a supplement. There will, therefore, be three parts of volume 103 of the House documents, with serial numbers 7897, vol. 1, 7897, vol. 2, and 7897, vol. 3, respectively.
